# TRAVERSE WALLS signs of quality

## SAFETY

- Traverse Wall complies the Playground Equipment Standard. No need for safety matting.
- EP bolt-on holds contain a safety device called EPS. This stands for “Explosion Proof System”.
- EP bolt-on holds used comply with the European Standard. No finger or toggle traps.

## QUALITIES

- 10 bolt-on holds fitted per linear metre.
- At least three climbing routes set - easy, medium and hard.
- Colourful bolt-on holds used. Includes a Smiley Face and the spelling of the organisations name.

## DURABILITY

- Product guaranteed for five years when coupled to an annual maintenance agreement.
- Durable resin based female fixings used. Do not spin, do not fall out.
- Anti-theft security pin bolts used for outdoor locations.
